## Miami Canal Pump Included In Bill Before Congress

Among the new works planned with the anticipated \$15 million from Congress are the L-38, forming the western boundary of Conservation Area No. 2, and pump station No. 2, at the conservation end of the Miami Canal.

According to W. H. (Bill) Hitt, vice-chairman of the flood control board, construction in the Everglades conservation areas, the northwest Okeechobee-Istokopka area and on the Kissimmee can get underway in fiscal year 1958, if funds are appropriated. Such funds can become available only upon enactment of the Flood Control Act and subsequent appropriations legislation.

Construction to improve the Harney Pond and Indian Prairie canals on the northwest end of Lake Okeechobee and to start work on canal C-41-A to bring a degree of immediate relief to annually inundated areas there is planned. A structure in the Istokopka canal designed to store water for use in that rich farming area is included in the Flood Control Act plan. A start in flood relief for the entire Kissimmee valley can begin, as well as work in the press creek canal outside Pompano Beach, if funds become available.

Corn and bean harvest are increasing daily and will reach an early peak by the middle of March.

## Lions Show Draws Capacity Crowd At First Performance

The Lions Club has done it. Last evening's opening curtain of their 6th annual revue and minstrel, witnessed by a large and enthusiastic audience, again set a new high standard of theater and entertainment by Belle Glade's own singers, dancers and comedians.

From the time the 8:15 curtain opened until the two hour political satire and patriotic extravaganza was brought to a close, the High School Auditorium rocked with laughter and applause.

"Let's See U S" proved to be a fast-moving production, packed to the brim with all sorts of laugh-provoking scenes and "quickie" gags, colorful costumes and scenery, musical numbers both old and new, and the kind of talent which aroused enthusiastic response.

Remedy, as a "screwball" Senator, newly arrived in Washington, skillfully satirized the role of "Senator O'Shay" and set the pace at the opening of the show which was carried on through ten revue scenes.

The "Red, White and Blue" minstrel which followed, brought all the music and jokes desired in this form of entertainment.

Permission from the White House to make a tour of investigation, brought into the show a series of scenes such as the Union Station scene, featuring an music and patter the Senator's vast entourage of office staff and servants, a thorough, ridiculous communism investigation, a garden party where music ranged from the sublime to the ridiculous, in other words, from the sweet strains of "Only Ma' Belong" to singing and dancing by a group of Gay nineties, Bathing beauties being promoted by the prominent Lions Club members.

Positively inspiring was the "Top of the World" scene in which the High School students Club members, under the direction of Marian Najarian, presented a vocal trio. A group of snappy drilling USA girls and two choral numbers, "This is My Country" and "Let's March."

"Let's See U S" is a professionally designed and directed TAPS production, with Russell & Axion at the helm. It will be presented for its second and final performance this evening's scene.

## Belle Glade's Spring Sale Festival Planned For Feb. 22nd Thru April 6th

Belle Glade merchants intend that their prices are in line with those 40 to 100 mill. district Bells.

Belle Glade merchants have come up with a well-considered plan to emphasize these facts, and to induce you and me to go into the stores and see for ourselves.

Commencing next Friday, catchy phrases on placards will be displayed in Belle Glade's store windows.

Bargains will be offered — some for your detection, for they won't be marked — some items will be marked at cost, and some at below cost to test your ability to tell a bargain when you see it.

A person unknown to the sales force and to the owner will write a shopping coupon each week and call attention to the coyness of the clerks and owners, as well as to the lack of the same thing.

This campaign is one of self-analysis by the merchants and a real effort to prove to all of us that "IT PAYS TO TRADE AT HOME."

All participating merchants will issue numerous tickets for purchases, and each week there will be a drawing for prizes that are desirable.

Some bargain items will be advertised and some will not be. Only you will be asked to inspect and offer suggestions. If you find what you need and want — buy it! If you don't, suggestions will be welcomed.

At 8:15, The Lions Club anticipates a capacity audience.

Southwest Counties Are Taking Population Count

Eight of Florida's southwest counties are joining in a campaign to determine how well they are served by the Twelfth Circuit, which they together comprise.

## "Rotten Apple" Labor Goons Cost CWA \$315,000 For Physical Damages And "Unfair Labor Practices" Suit

### Last Rites Held For Fritz Stein

The backbones of most unions is not represented by their paid so-called leaders, organizers and delegates" is no more thoroughly proven than the net result of the strike of Southern Bell CWA workers sometime ago.

Violence, intimidation and fire in Belle Glade during the strike was not generally attributed to local union figures, but, nevertheless, didn't make friends for the union in this area, and most local members are being awarded the unreliability of their "mouthpieces."

On three counts the Union "got it in the neck."

First their own appeal in the dismissal of eleven employees resulted in eight being permanently dismissed, and three retained, with penalties; secondly the Labor Relations Board issued an order against the Union for "unfair labor practices during the 1955 strike."

Secondly, \$315,000 was paid to the Southern Bell Telephone Company for physical damage to the company's facilities.

Payment by the Union was the outgrowth of a damage suit filed in 1955 by the Company. An agreement to this effect was reached by the Company and CWA attorneys, Southern Bell District Manager E. F. Reddy announced this week.

In the suit filed May 31, 1955, in the Davidson County, Tennessee (Nashville) Circuit Court, Southern Bell charged the Union with a pattern of "violence" designed to destroy telephone facilities and interfere with communication service to the public in Alabama, Louisiana, Georgia, Kentucky, Florida, Mississippi, North Carolina, South Carolina and Tennessee.

The suit, seeking \$5,000,000 for punitive as well as actual damages, alleged that the Union and its members and others plotted an "unlawful combination and conspiracy" to damage property.

The suit said the Union "embarked on a program of wanton, willful and malicious misfeasance of the conduct and property damage, including the use of dynamite, (Continued on Page Eight)

The Festival of Florida Products

BUY & ENJOY FLORIDA PRODUCTS

Glades vegetables are shipped into each State and into every Province of Canada and to practically all important Ports of the Caribbean. Glades cattle are finding buyers in South America's important cattle countries.

Glades sugar is refined by Savannah into Dist. Crystals which are a joy to the population of southeastern United States; ramie fiber is now an important item in a majority of the nation's industrial textile plants; and Glades sod is found from the patio of the Fontainebleau to the lawns of Buckhead, Georgia.

The Glades has also superior and few equal communities where mechanical agriculture is as efficiently practiced — and a majority of the nation's tractor drivers, machine operators, farmers, mechanics and machine shops, sometimes to the favor of the major farm implement manufacturers.

Get on a nice cliffed looking shirt, stick a big cigar in the mouth and strut around with the attitude, "Yep, I'm from the Glades — What do you do in Texas that's bigger, in our line?"

## Today's Meditation

Read Mark 1:40-45.

And there came a leper to him, beseeching him, and kneeling to him, and saying unto him, If thou wilt, thou canst make me clean. (Mark 1:40.)

For nine of our leprosy patients a discharge service had just been held. They had been faithful in coming for medical help, and had obtained finally the negative tests. After the service there was joy among the patients—giving praise to God, and their customary dances.

Now they all realized that their disease could be cleansed; and that God was answering their prayers. Soon others would be discharged. In previous services the missionaries had told them how Jesus had cured people of this same sickness. In faith they had waited for this day.

We all need to look to God in faith, believing that we can be cleansed of the disease of sin. We have the assurance that when we believe in God and have faith in Him, He is ready to forgive us. His Son will come to our aid. He is the great Physician.

PRAYER

O God, we pray that Thou wilt keep the light of Thy love shining upon us. We thank Thee for Thy Son. We thank Thee for the assurance that through Him we have cleansing for our sins and hope of new life. In His name, Amen.

THOUGHT FOR THE DAY

To accept Christ means freedom from sin and hope of new life now and evermore.

### Gus Torrence Caught In Law Violation By Staff Book Lee

With the new shine hardly off his badge, Constable Buck Lee has done what Mr. Nugent, critic of law enforcement of

ficers and the Grand Jury, says he wanted to "get the goods for prosecution." Mr. Lee found Gus Torrence in possession of bolita tickets, which is not according to the writtlen laws governing such things.

Jack Witten, who operates a restaurant leased from Torrence on the first floor of the rooming house, was also charged with possession of bolita tickets. Both are from \$1,000 bolita. Lee reported finding several cases of whiskey in the restaurant and that it does not have a beer and wine license.

Torrence was important in frustrating Nugent in prosecution of violations concerned with the Williams case. Mr. Nugent has been right frustrated several times and has assumed to criticize quite fluently and specifically. He doesn't like many law enforcement officers in the County, it seems.

Torrence has also been the subject of discussions by the local City Commission because of his alleged activities, legal.

### LIVESTOCK OUTLOOK FOR FLORIDA

Approximately 100,000 head of cattle will be fattened in Florida during 1957, predicts Dr. T. J. Cunha, Agriculture Experiment Station animal husbandry and nutrition department head.

There is still a greater demand for more high quality purebred bulls and high quality feeder cattle than the number produced in Florida. Thus the purebred breeder interested in producing high quality cattle has an excellent market for bulls in this state.

Increases, rather than decreases, in hog number will occur in Florida in 1957, continues Dr. Cunha in the February issue of the Florida Grower and Rancher. The efficient producer will be in a much better position to do well with hogs. At present, it is estimated that Florida has about 6,000 head of sheep. Indications are that this number will increase about 1,000 head in 1957.

### District 8, Tourney Largest To Ever Be Held In This Area

By McCaskill  
Plans are almost complete for the District 8, Class A Basketball Tournament to be held here Feb. 27 and 28 and March 1st and 2nd. Athletic Tournament manager Jim Mayor, states that the tournament officials have been approved and selected and that these officials will be the best available.

Belle Glade's head basketball coach Hector Ouellette says that this will be the largest tournament ever held for this district and that the quality of basketball and spirit of competition is much improved, over that of recent years. He feels that this affair will be something to remember, but is somewhat pessimistic concerning the chances of his Golden Rams who seem to have gone into a slump at the most crucial point in the season. However, tournament play is highly unpredictable and it is a well known fact that the Rams have a better than average team.

### Rams Drop Two Games In Conference Play

By McCaskill  
Secrets' high flying Hawks lived up to expectations here last Friday night and defeated a confused team of Golden Rams 72 to 54.

The Hawks grabbed a quick first quarter lead which they never relinquished, although the Rams managed to pull up even with them at 21 all early in the second period. In the third period Belle Glade fought their way to within six points of their opponents, while scoring 16 themselves. In the fourth period the sharp shooting of Max Cole and the rebounding of Burt Van De Mark took their toll and the Hawks won going away.

Belle Glade dropped their third conference game in a row

### Commissioners Aid In New Site For S. Fla. University

A request from the Boca Raton Town Council for financial help from the County Commission to obtain Federal releases for the Boca Raton Air Base, new site of the proposed University of South Florida, was

approved by the board "in spirit" with the exact amount of financial aid subject to board approval.

Commissioner Lake Lytal reported that the Boca Council had requested a sum of \$2,500, half of the maximum figure the council estimates will be needed to present its application for Federal and CAA release of the

field. The council would pay the other \$2,500. Lytal also reported that the council has hired an expert in obtaining such Federal releases and that he is now determining the actual figures for these releases. In order to cut down on this figure, the board has offered its engineering department, Lytal said.

Commissioners emphasized their willingness to "cooperate fully" with the town council so that the title can be cleared and turned over to the State for the university site.

## SWEET CORN GROWERS...

Practice the 4 R's to stop leaf blight

Use DU PONT PARZATE

insect fungicide

**RIGHT MATERIAL** Du Pont "Parzate" powder or liquid, effectively controls Helminthosporium leaf blight on sweet corn.

**RIGHT AMOUNT** For "Parzate" powder, 2 pounds per 100 gallons should be used. The correct mixtures for "Parzate" liquid is 2 quarts, plus 1/4 pound zinc sulfate per 100 gallons.

**RIGHT WAY** Make sure that both sides of leaves are thoroughly covered. If applied improperly, even the best fungicide will be wasted.

**RIGHT TIME** Spray over 5 to 7 days. If disease situation in area is critical, spray more often.

"Parzate" makes a superior dust because of its fine particle size. Dusts should be used only when time or field conditions do not permit spraying. Sprays give superior disease control and resist washing off.

On all chemicals, follow label instructions and warnings carefully.
